Remove these with methylated spirits.

If fresh, wash with warm water. If dried, scrape off excess with a mix of mild detergent and water, adding a few drops of ammonia to remove any stains.

## Carpet

Where carpet has been flattened by heavy furniture, place ice cubes on the area and the carpet will lift as the ice melts. To deodorise carpet, sprinkle generously with baking soda before vacuuming.

## Oven

A damp cloth dipped in baking soda will remove grease and stains from the glass. To clean the oven, warm for 15 minutes, turn off and place full strength ammonia in a saucer on the top shelf and a pan of boiling water on the bottom shelf. Leave overnight with the door closed. The next morning open the door for 30 minutes (avoid the fumes), and wash off grease with detergent and hot water. Orange peel heated in the oven will remove any lingering smells. Cloudy ammonia is good for use on oven racks, trays and rangehood filters. Simply soak overnight and wipe clean. Line the griller tray and under elements on electric cook-tops with aluminium foil to catch food scraps and drips then remove and replace it when it's dirty.
